Tell us about your favourite holiday**My trip to Tokyo***by Kenny Tong*

I have travelled abroad four times. My favourite place is Tokyo.

I went to Tokyo with my parents last year. We went to a fantastic amusement park. The queues were long but the rides were worth the wait. They were so exciting. I also took lots of photos with my favourite cartoon characters and bought some souvenirs for my friends.

We also went to a fish market. Mum and I took a sushi class.

It was cherry blossom season during our visit so one day we went to a park and had a picnic under the cherry blossom trees. After lunch we hired a paddle boat on the lake. It was hard work! My legs were very tired afterwards.

I have only been to Japan once, but I would love to go back. It is a very interesting country.

An interview with my friend about mini holidays*by John Lo (our junior reporter)*

John : Have you ever been abroad?

Gina : No, I haven't. My parents are busy so we can't have long holidays. We go on short trips to different Chinese cities.

John : How many times have you done that?

Gina : Loads! Maybe five or six times.

John : That's a lot! What kinds of things have you done?

Gina : We've visited some interesting museums. I've learnt a lot about Chinese history and culture. We've done lots of other fun things too.

John : Like what?

Gina : Last month, we went to an indoor skiing park in Shenzhen.

John : I've never skied before.

Gina : It's difficult! I fell down a lot and got cold and wet. Luckily, there were other things to do. I whizzed downhill in a snow tube, built a snowman, played on a slide ...

John : Wow! What's the best thing you've done on holiday?

Gina : Hmm. I've watched a circus show. That was amazing. I've been on a nighttime boat trip. It was cool. Oh, and I've joined a kung fu class. I've done so many interesting things. I can't choose the best!

John : Your mini holidays sound amazing!
